PROFESSIONAL SUMMARY:

Innovative Full-Stack and Mobile Application Developer with hands-on expertise in building scalable web platforms and cross-platform mobile applications. Proficient in modern frameworks including React Native, Next.js, and TypeScript, alongside a strong foundation in Artificial Intelligence and Natural Language Processing (NLP). Experienced in end-to-end development, utilizing Agile methodologies, and deploying via Vercel, Firebase and Supabase. Possesses a solid background in hardware troubleshooting and IT maintenance.

TECHNICAL SKILLS

- **Programming Languages:** TypeScript, JavaScript, Python, HTML, CSS.
- **Frontend & Mobile:** React Native, Expo, React.js, Next.js, Tailwind CSS.
- **Backend & Databases:** Prisma, Supabase, Firebase Node.js.
- **DevOps & Tools:** Git, GitHub, Docker, Ubuntu (WSL), Vercel.
- **Concepts & Methodologies:** Artificial Intelligence, Machine Learning, Natural Language Processing (NLP), Agile, Scrum, Kanban, System Development Life Cycle (SDLC), Responsive Design.
- **Hardware & IT:** Computer Maintenance, Motherboard Troubleshooting, BIOS Configuration.

PROJECTS:

CareerPulse AI | Full-Stack Developer

- Engineered an AI-powered resume analyzer and interview coach using Natural Language Processing to parse and evaluate user resumes.

- Directed the project lifecycle through Agile methodologies, producing comprehensive UML diagrams, Figma layouts, and academic proposals.

Smart Engineering Portfolio Website | Frontend / Full-Stack Developer

- Designed and developed a professional, responsive portfolio website to showcase engineering services, corporate identity, and ongoing projects.
- Engineered the platform utilizing Next.js, Tailwind CSS, TypeScript to ensure high performance, SEO optimization, and a seamless user experience across devices.

Event Ledger | *Full-Stack Developer*

- Developed and architected a robust ledger application, establishing streamlined code management and version control workflows via GitHub.
- Managed database architecture utilizing Supabase and successfully executed production environment deployments using Vercel.

Market Analyzer | *Software Engineer*

- Designed and engineered a data analysis tool utilizing [Insert Technologies, e.g., Python, Next.js] to aggregate, evaluate, and visualize market trends.

Digital Healthcare Web Platform | *Full-Stack Developer*

- Developed a comprehensive digital healthcare platform utilizing Next.js, TypeScript, and Tailwind CSS.
- Implemented user dashboards, an appointment booking system, a marketplace for medical personnel, and location-based service allocation.

SmartHome_Guardian | *Mobile Developer*

- Designed and built a cross-platform mobile application for smart device management utilizing React Native and the Expo framework.
- Engineered custom UI components including navigation bars and modals for an optimized user experience.

WHS Tiko Management System | *Frontend Developer*

- Developed the frontend interface using React.js for a comprehensive school management system.
- Built modules for student management, teacher management, and payment processing.

FileArch | *Desktop Developer*

- Contributed to the development of an archiving and document management software for desktop environments.

EXPERIENCE

Full-Stack Developer | SoftNovan | Remote | February 2024 – May 2026

- Build responsive user friendly interfaces for both web and mobile applications and also constructing the logic behind the application.
- Wrote clean and maintainable codes for reusable components using modern libraries and frameworks.

Computer Maintenance & IT Support Technician | Freelance | Buea, Cameroon | *Oct 2023 – Present*

- Provide technical hardware support, including laptop RAM installations, power supply unit cabling, and motherboard component identification.
- Perform system resets, including motherboard jumper configurations for BIOS password recovery.

Desktop App Developer Intern | Didacsoft Sarl Makepe | Douala, Cameroon | *Jul 2023 – Sep 2023*

- Collaborated with a team of developers to build and optimize desktop-based software solutions.
- Wrote clean, maintainable code and participated in debugging and troubleshooting applications.

EDUCATION

University of Buea, Buea, Cameroon

Bachelor of Technology (B.Tech) in Computer Engineering | Currently in Year 3

University of Buea, Buea, Cameroon

Higher National Diploma (HND) in Software Engineering | Oct 2022 – Jun 2024

NAL Bilingual Academic Complex, Douala, Cameroon

GCE Advanced Level | Sep 2020 – Jun 2022

- Subjects Passed: Chemistry, Pure Mathematics with Mechanics, Physics, Computer Science.

CERTIFICATIONS

- **Certificate of Responsive Design**, Mindluster (Feb 2023 – Jun 2023)
- **Certificate of HTML, CSS, and JavaScript**, Mindluster (Feb 2023 – Jun 2023)

LANGUAGES & INTERESTS

- **Languages:** English (Advanced), French (Intermediate).
- **Interests:** Coding, Research, Tech Enterprise Planning, Reading, Sports.
